🎓 University of Porto: B.Sc., Maths & M.Sc., Maths

I'm a passionate IB Maths tutor from Porto. My dedication lies in making the abstract tangible, helping students understand and excel in Maths. With a knack for breaking down complexities, I've guided many to academic triumphs. My students' achievements fuel my drive to teach, and I take pride in each of their successes.

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last 7 years, I've worked with a diverse group of students from various backgrounds. I've proudly watched as they've tackled IB Maths with growing confidence and enthusiasm. From aiding students with fundamental concepts to guiding those prepping for their final exams, my experience spans wide. I've also been part of an IB tutoring community, where I collaborated with fellow tutors, sharing strategies and resources to further enhance our teaching methods.

Tutoring Approach

My teaching philosophy is simple: understand, don't memorize. Every session, I aim to break down concepts in a manner that is intuitive and relatable. By correlating Mathematical principles to real-world scenarios, I make the subject less daunting. Homework and periodic assessments ensure consistent progress, and I always encourage my students to voice their queries, no matter how minor they seem.
