 **University of Tokyo: MSc in Applied Maths**

Originally from Cologne, I ventured abroad to pursue my academic dreams. With a rich tapestry of experiences spanning diverse cultures, I've cultivated a truly global perspective that I infuse into my teaching. Today, my focus is on IB and IGCSE Math and Chemistry, connecting theoretical concepts to real-world applications.

Qualifications

University of Barcelona: BSc in Chemical Engineering

University of Tokyo: MSc in Applied Maths

IGCSE/IB: Certified Instructor (Math and Chemistry)

Language: German, English, Spanish, and basic Japanese

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last five years, I've successfully guided students through IB and IGCSE curriculums, watching them grow in confidence and skill. From basic principles to complex problems, I've honed my approach to cater to individual needs. Moreover, my multicultural background often sparks enlightening discussions, broadening students' horizons.

Tutoring Approach

Learning, to me, is more than just absorbing information—it's about igniting passion and curiosity. I design my lessons to be interactive, weaving in stories from my travels to make abstract concepts relatable. I strongly advocate for a foundation-first approach, ensuring that students grasp fundamental principles before progressing. Feedback is crucial; hence, regular reviews and discussions form the cornerstone of my methodology. I am here to inspire, to challenge, and to nurture.
