

University of Malaya: BSc Physics

I am a top-tier Physics graduate from the University of Malaya, specialising in A-Level and IGCSE curriculum. With an intense passion for Physics and a keen interest in education, I've dedicated myself to helping students master this often challenging subject. My academic achievements include a First-class degree and recognition for an exceptional research project in quantum physics.

Teaches: [Maths](#) [Physics](#)

Curriculum: [GCSE](#) [IGCSE](#) [A-Level](#)

Qualifications

University of Malaya: BSc Physics (2015–2018)

IGCSE: Physics (A*), Mathematics (A*), Further Mathematics (A*), Chemistry (A*), English (A*), Biology (A*), Malay (A*), Computer Science (A*)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last 5 years, I've tutored over 300 hours in A-Level and IGCSE Physics, helping students grasp intricate concepts and achieve higher grades. My experience includes both one-to-one tuition and group classes, with students from diverse backgrounds.

My proudest achievements include helping a student go from a C to an A* within a year and successfully preparing numerous students for the rigours of university Physics. I've received outstanding feedback from both parents and students, praising my ability to demystify complex topics and build strong rapport.

Tutoring Approach

My approach to teaching Physics involves a blend of in-depth understanding, application of knowledge, and exam-oriented training. Initially, I assess the student's current grasp of the subject and tailor lessons to fit their unique learning style. Each lesson explores key theories and principles, with practical examples that demonstrate how Physics shapes the world around us.

For exam preparation, we extensively utilise past papers to familiarise students with exam formats and time management. My feedback is always constructive and thoughtful, helping students identify weak points and turn them into strengths.

Extracurricular Activities

Amateur Astronomy

Badminton

Reading Science Fiction
