American University of Sharjah: MSc in Biological Sciences

As a native of UAE, I specialize in tutoring IGCSE and IB Biology. I completed my Master's degree in Biological Sciences from the American University of Sharjah. During my time at university, I discovered my passion for teaching biology, which I've honed over years of tutoring. I'm committed to making biology approachable and engaging for all my students.

Teaches: **Biology**

Curriculum: **GCSE** **IGCSE** **IB**

Qualifications

American University of Sharjah: MSc in Biological Sciences (2017-2019)

United Arab Emirates University: BSc in Biotechnology (2012-2016)

IGCSE & IB Diploma: with Higher Level Biology, Chemistry, and Physics; SL Mathematics, Arabic, and Environmental Systems and Societies. A - Biology EE. A - Theory of Knowledge

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past four years, I've worked with over 50 students, offering over 800 hours of one-on-one tutoring in IGCSE and IB Biology. I've successfully helped my students enhance their understanding of complex biological concepts, thereby significantly improving their grades. I also possess experience in tutoring students with special needs, enabling them to achieve their full academic potential. I take pride in my ability to motivate students and instill a love for biology, receiving consistently high feedback from both students and parents.

Tutoring Approach

My approach to tutoring is flexible and tailored to each student's unique learning style. For exam preparation, I focus on teaching students how to approach questions logically and systematically. This involves ensuring that they have a clear understanding of core biological concepts and are capable of applying this knowledge to solve complex problems. We also work on past paper questions to practice these skills and gain familiarity with exam format.

For coursework, I assist students in organizing and presenting their work effectively. I provide detailed feedback on their drafts, offering advice on academic writing and critical analysis. If a student is struggling with a topic, I employ visual aids and real-world examples to clarify complex biological processes.

For the Theory of Knowledge component, I encourage students to question and critically assess the knowledge they gain in biology, instilling an understanding of the subject beyond the confines of the syllabus.

Extracurricular Activities

- Cycling
- Reading Science Fiction Novels
- Cooking Middle Eastern Cuisine
